Below is a summary of some of the **exciting changes and new features**.

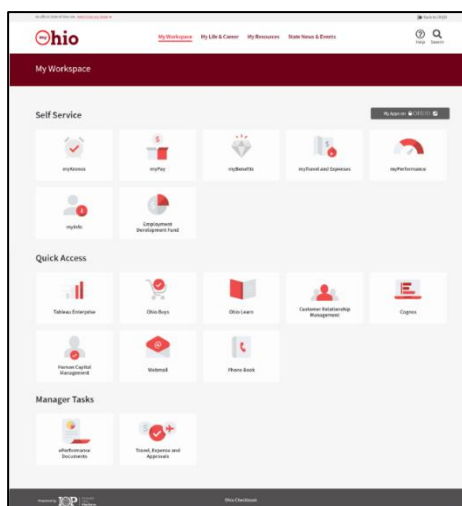

## What's Changing?

From the **"My Workspace"** page, employees will have quick **access to essential applications such as myKronos, myPay, Ohio Learn, and the OH|ID App Store.**

### My Agency

## My Life & Career

The new “My Life & Career” page is focused on information specifically related to your employee relationship with the State of Ohio. This includes information on medical and financial benefits, taxes, and leave conversion.

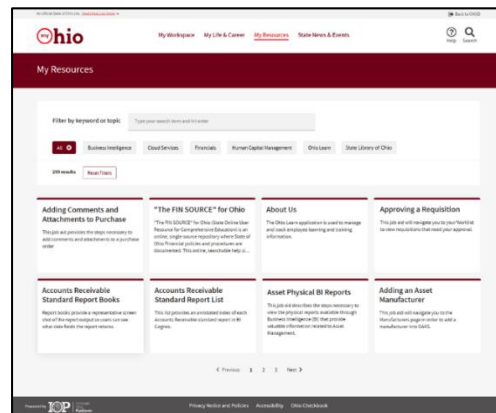

A new guided search feature will be available on the “My Life & Career” page to help employees more easily locate specific resources.

Beginning July 28, “My Life & Career” will **only be visible to state employees**.

## My Resources

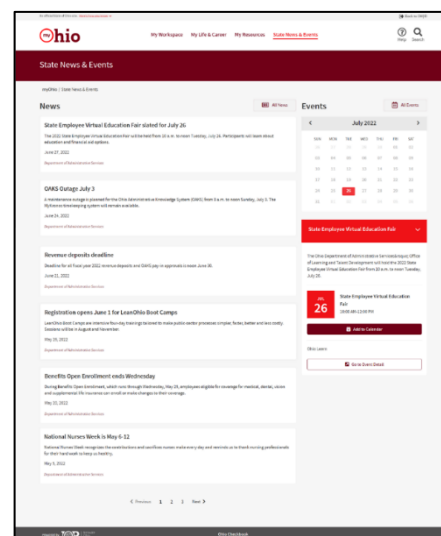

The new “My Resources” page will provide a more uniform experience across programs. The most impactful change to “My Resources” is the addition of new advanced search features. These new search features include advanced filtering and resource tagging options, as well as a more inclusive contained search bar.

## State News & Events

The new “State News & Events” page provides helpful news from enterprise programs and important updates for the state workforce. You can also explore upcoming events and add them to your Outlook calendar.

Employees will also have the ability to browse all state news and events across the top of each page within myOhio.
